## Call for Papers & Proposals

The 13th IEEE International Conference on Data Science and Advanced Analytics (DSAA'2026) will be held in New Delhi, India on October 6-9, 2026. It features its strong interdisciplinary synergy between statistics, computing and information/intelligence sciences, and cross-domain interactions between academia and business for data science and analytics. DSAA sets up a high standard for its organizing committee, keynote speeches, submissions to main conference and special sessions, and a competitive rate for paper acceptance. DSAA has been widely recognized as a dedicated flagship annual meeting in data science and analytics such as by the Google Metrics and China Computer Foundation. DSAA'2026 provides a premier forum that brings together researchers, industry and government practitioners, as well as developers and users of big data solutions for the exchange of the latest theoretical developments in Data Science and the best practice for a wide range of applications.

DSAA'2026 invites submissions of papers and proposals describing innovative research on all aspects of data science and advanced analytics as well as application-oriented papers that make significant, original, and reproducible contributions to improving the practice of data science and analytics in real-world scenarios. Refer <https://dsaa2026.dsaa.co/> for the details.
